Exercise Intelligently.

"Grow younger as you grow older by cultivating a love of good, health ul, honest sport," is sound advice. Walking, riding, rowing, playing golf, tennis or croquet or any other mild form of exercise in the open air keeps the muscles supple and prevents the joints from stiffening, fills the lungs with life-giving oxygen and keeps the blood from becoming sluggish or the liver torpid. In short, it is exercise and right thinking that keep the body "in tune and up to concert pitch."-Orison Swett Marden in Chicago Daily News.

Put Romance Before Truth. Inaccuracies in history and anec-

dotes with no foundation of fact may be blamed on some of the older historians. The men who first wrote of Colonial and Revolutionary times often arted to make their accounts romantic and picturesque by revising history to Buit themselves, because they did not see that the real facts were more romantic than their embellishments could make them. Our histories, paintings, poetry and traditions are still influenced by their work.
